**DIFFERENCES MAY YET BE AMICABLY SETTLED**

Shareholders of the Nevada-Utah-Amalgamated-Pioche and other properties that were recently merged will be interested to know that there is a plan under way to settle up the differences now existing between Ernest R. Woolley and L. Volstein & Co. A representative of the eastern interests has been sent on here and several conferences have been held in this city. Thus far no agreement has been reached, but it is said to look favorable for an amicable settlement during the week. This will mean that all suits are to be dropped and the new interests will be given a free hand to go ahead and carry on operations at the Pioche mines without further delay.

In the meantime, Woolley has some new plans under way for the rounding up of another Utah mining proposition. With him are some of his associates in the Pioche properties, including some men in the east who are connected with large industrial concerns. He does not hesitate to say that he has prepared for ample backing, and that he will open up some mineral property in a section of his state that has long been neglected.

"It is not a good idea to discuss our plans in advance," said Mr. Woolley recently. "I will say, however, that we have some property that engineers say has an excellent chance of developing into a mine. I have had the proposition under consideration for some time, and intend to have associated with me men who were loyal to me in other fields, and I propose to see that they are given every opportunity to profit by this investment. We hope to have our plan completed within a few weeks."—San Lake Telegram.

**LONG TUNNEL EXPECTED AS THE NEXT PROJECT**

The Western Nevada Miner contains an article that tells of a contract that has been let in the Cal Creek district, near Mt. Grant for a 2900-foot tunnel, which will tap a number of ledges that are exposed on the surface. The tunnel will give a depth of over 1000 feet to the properties that it will enter. The first contract has been signed. The tunnel company will receive a small royalty on all ores that are taken out through the tunnel.

**FOR WIVES ONLY.**

Never allow hirelings to tend your husband in what concerns his bodily welfare.

See that his clothes are ready each day and befitting the season of the year.

Assume the qualities of a barometer that you may foresee the electric disturbances which visit every ménage.

When your husband is in a bad temper, don't develop similar symptoms, but when he is merry imitate him unflinchingly.

Don't fondle him before meal-time. Kisses to a hungry man are as soap bubbles to a parched throat.

Use your tongue only in agreement. Disapproval is best expressed with the eyes.

If your husband has the gout don't insist on walking.

If you wish to convince him that you are a better actress than Sarah Bernhardt and a sprightlier dancer than Poyiowa show him that you are a better cook than Escoffier.

A wife's duties are, among them, to smooth over domestic tiffs—a man never admits he is in the wrong—to attend to the household finances and to have an eye for the week after next.

Finally, never lose sight of the fact, in making all these sacrifices, that if man supports the family, woman is his superior in far more ways than he is hers.—Georgette Le Blanc.

**BROTHER BOOTHER IS ENJOYING PROSPERITY**

W. W. Boother, in a recent issue of the Elko Independent says: "The front of the Independent office has been brightened up with fireproof paint and carries a new sign. It now presents a good appearance. Of course, all this is an evidence of prosperity and a sure indication that we have weathered the storms of adversity and the general ebb-tide of a few enemies that tried to drive us out of town in the early 90's. 'The little black devil' is doing business at the old stand."

**THE TONOPAH LUMBER CO.** has the largest stock of all kinds of lumber—mining timbers and building material; wholesale and retail. Mining timbers a specialty.
